

SMAC Meeting Room

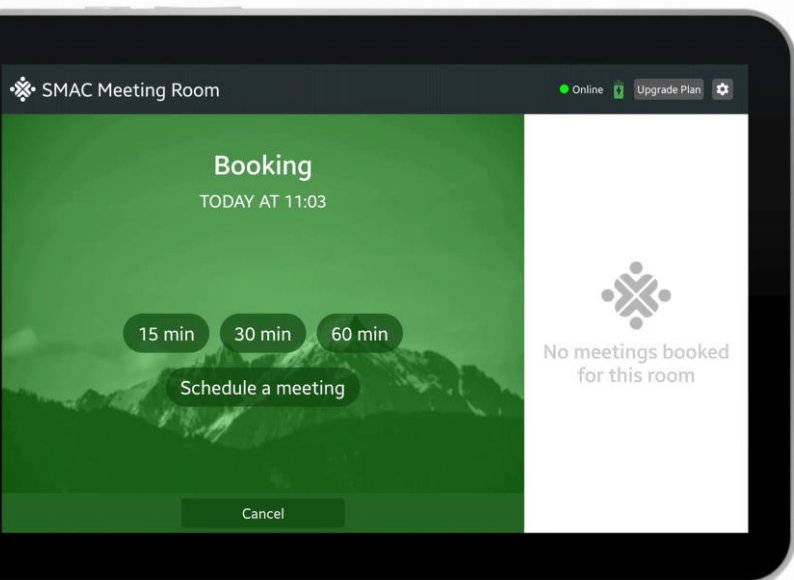

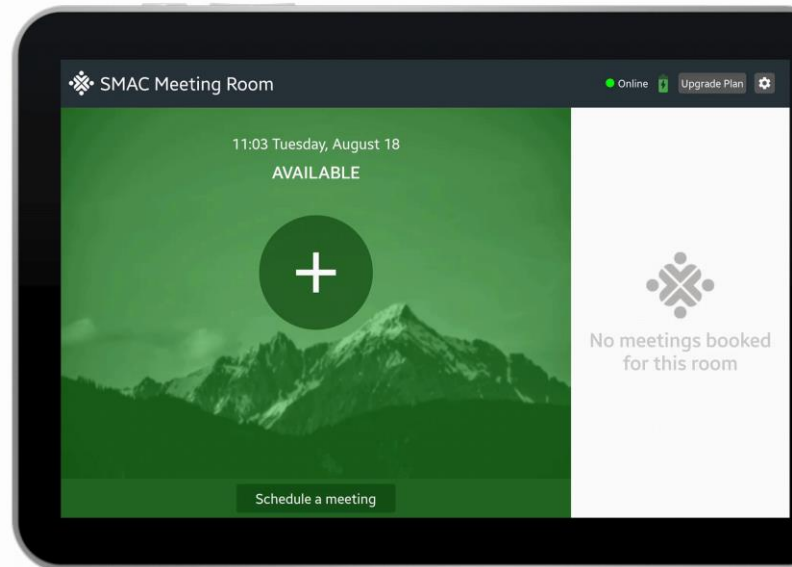

SMAC Meeting Room is providing everything you need to coordinate, schedule, and organize your meeting.

SMAC Meeting Room is a Product of **SMAC Softwares GmbH**

Manage your meetings effectively, smoothly and easily

SMAC Meeting Room App is a modern Digital Meeting and conference room booking system and platform. Smart technology enables effective management and planning of company meetings, makes company processes simpler and helps to use company space in a better way.

Book Your Meeting in a Second

You can book a meeting directly on the touch screen panel at the meeting room door, on your mobile on your way to work.

The centralized and digitized system will make sure you know which meeting room in your company is available, which room is booked at the moment and which events and activities are planned.

SMAC Meeting Room App is an ideal solution for small-medium-sized businesses and corporate clients. Our customers include universities, hospitals and other institutions. The smart functions make the system suitable for any business.

Basic Features & Functions

Integrate with Office Systems Apps

SMART Meeting Room syncs with your existing calendars, so meeting schedules are always up to date.

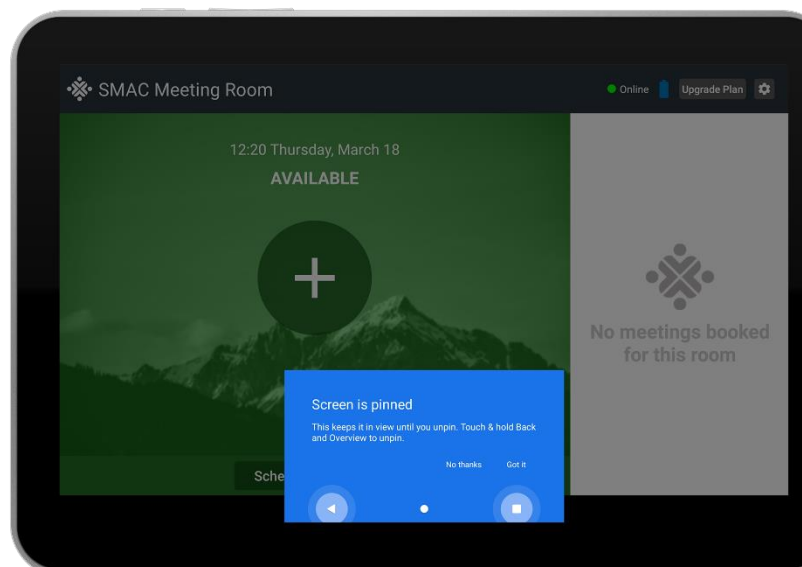

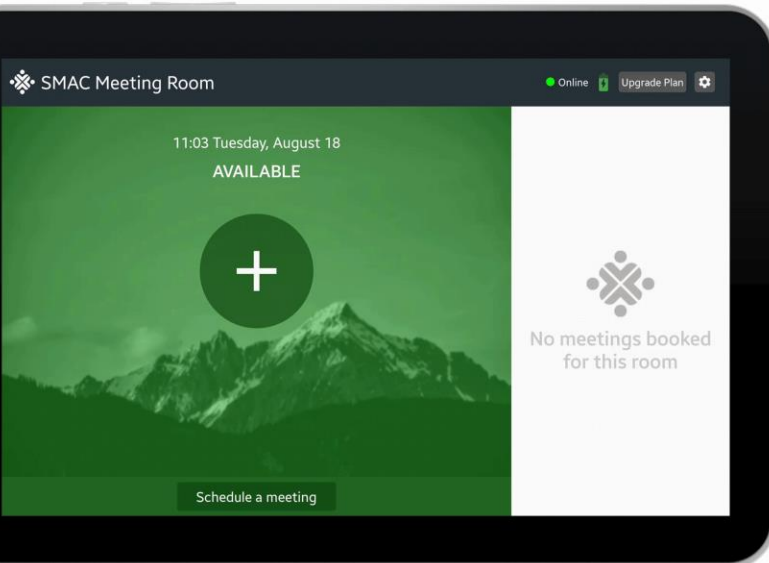

SMAC Meeting Room App booking system is highly popular worldwide for its user-friendly interface and modern design, making the booking of a room directly on the touch screen panel at the meeting room door quick and easy. The system can be integrated into Google Apps, Microsoft Exchange or Office 365 systems. It works on Android and iOS devices and features a number of great functions which enable effective management and planning of meetings.

Kiosk Mode

The app limits the user to only access the SMAC Meeting Room and can be customized in what actions are allowed on the tablet.

This function allows you to see company events on the display of the meeting room device. Particularly useful for training rooms, the function turns the device into an information panel displaying basic information about the event currently held in the room.

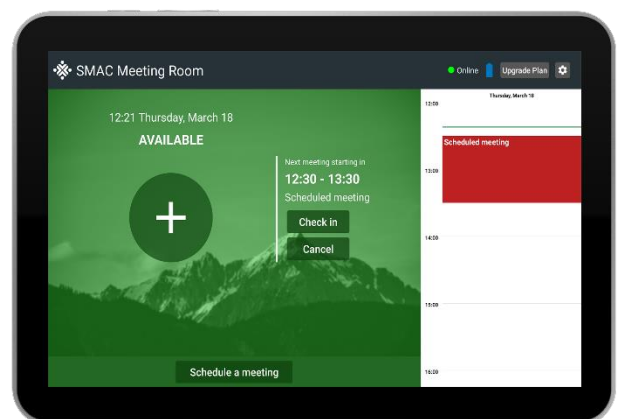

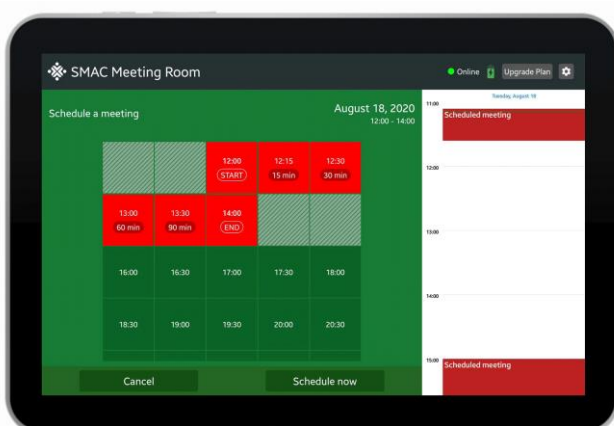

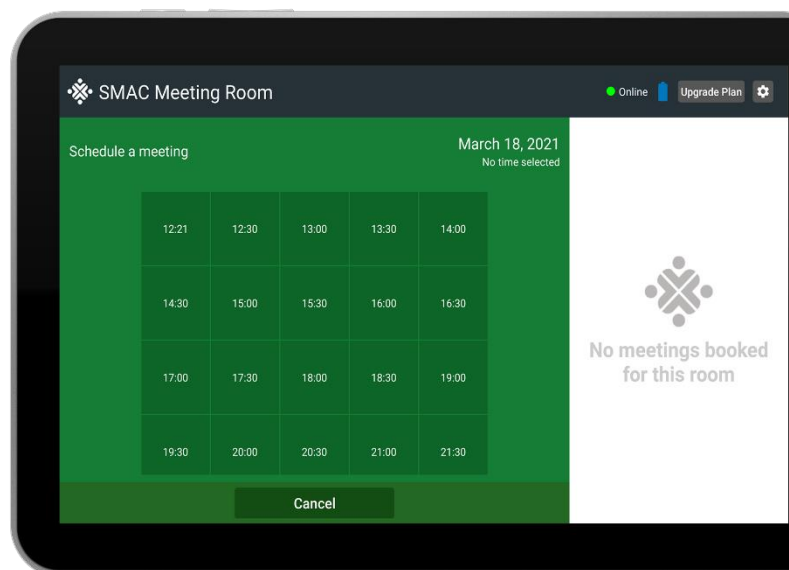

Quick Meeting Book

Book a free room! With the ease of three clicks, the available room is yours. Your colleagues will see that the room is occupied in their digital calendars as well.

Schedule a meeting

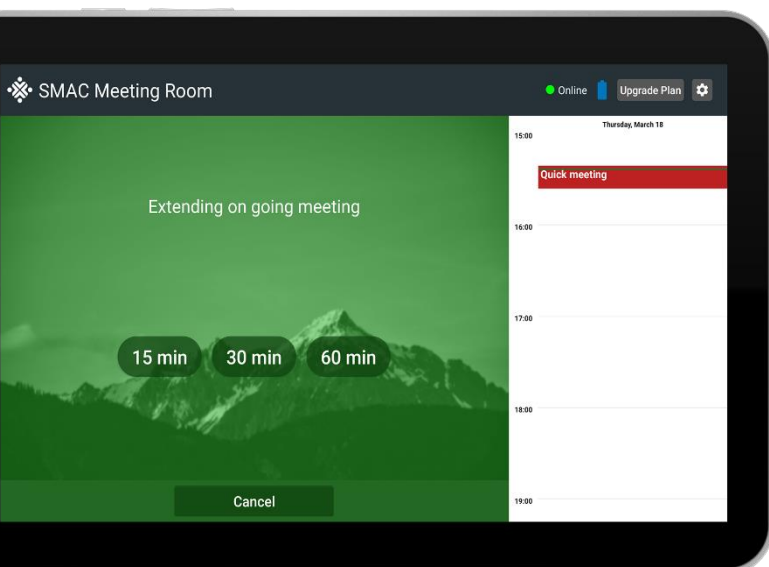

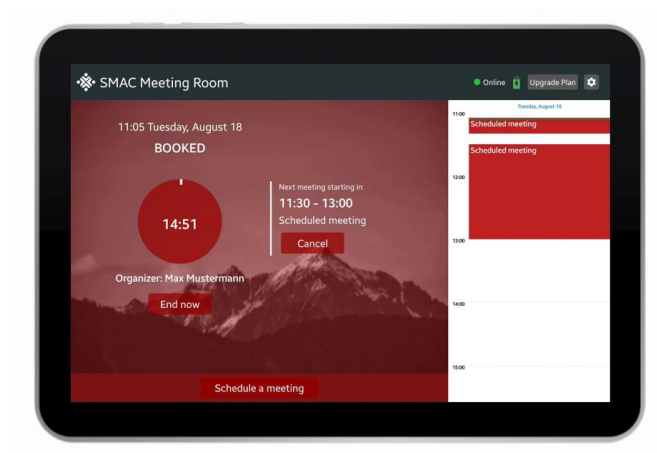

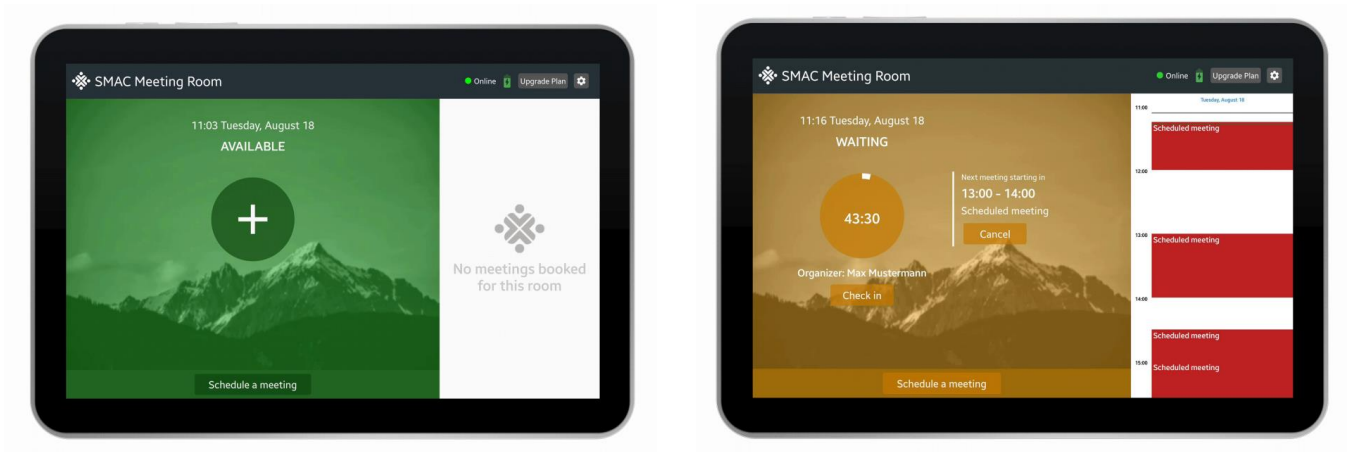

It allows you to make personalized bookings. You get to decide the time, name of the meeting etc.

The scheduled meeting will be visible on the display of the meeting room device immediately after the reservation is made. On the right on the agenda, you can see the name, date and time of the meeting. Once the meeting starts, you can also see the participants.

Room Status

Green for available, yellow for waiting to be occupied and red for occupied.

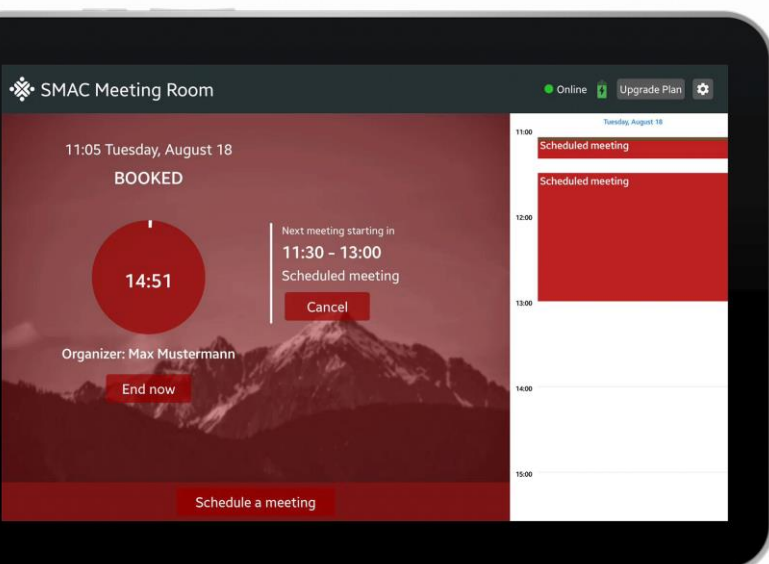

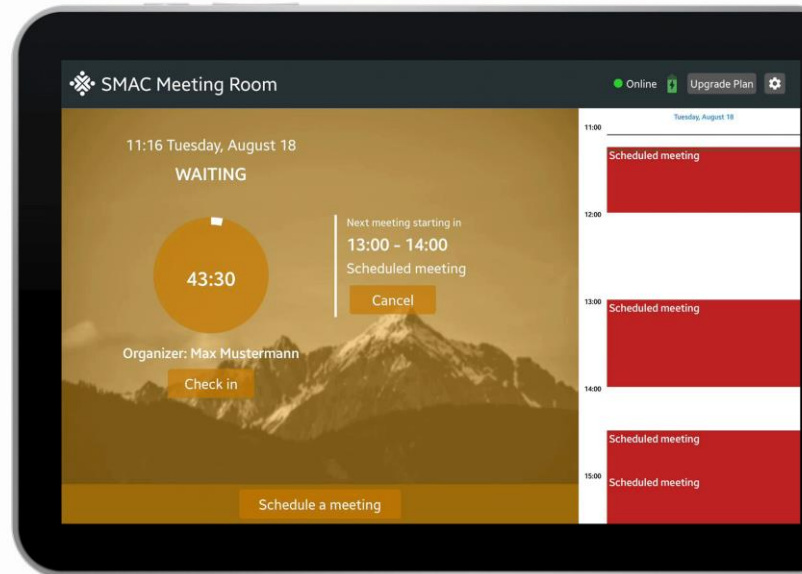

Extend Meeting

An ongoing meeting can be extended using the Extend button. If you need more time for your meeting, extend your booking in a second. Just click on "Extend" and the room is extended for a while longer available.

Check into Meeting

Confirm your attendance at the meeting on the meeting room device display by pressing the "Check-in" button. If the attendance is not confirmed within 10 minutes after the meeting starts, the booking gets cancelled automatically, and the room can be immediately booked.

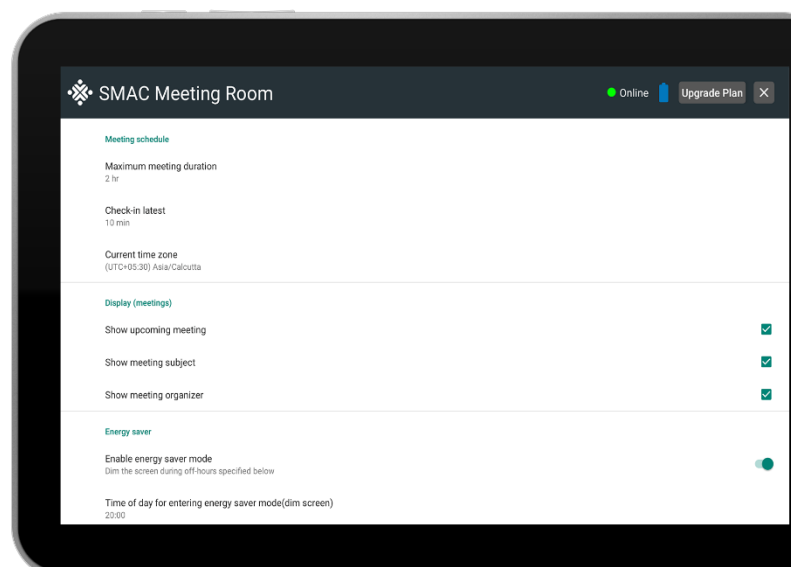

End Meeting

Free up that extra time from your booking and make the room available to colleagues by selecting "End now".
